

Jóvenes en Acción
U.S.-Mexico Leadership Initiative

The Embassy of the United States, in partnership with the Ministry of Public Education (SEP), is pleased to announce the selected finalists of the twelfth generation of the Jóvenes en Acción program. These selected teams will be implementing community projects to address various social issues, including Domestic Violence as well as Creativity, Innovation and Entrepreneurship. The selected participants are first or second year public and private high school students in Mexico. Due to the ongoing health concerns, and taking into account the safety of our 2021 participants, this year's program will be conducted entirely in a virtual mode, with the possibility of an in-person closing session in Mexico City, if travel restrictions are lifted in 2022. Participants will start with a four-month program to provide them with the necessary tools to implement their community programs, followed by virtual sessions throughout the academic year.

Congratulations to the 2021 Jóvenes en Acción participants!
